

TYPE B MOUNT For Weaver Scopes

Type B Mount complete. Retail \$5.50. Wholesale \$4.12.

Type B is a bridge mount designed to hold the scope in a very low position and to make it actually a part of the gun. Because the mount gives results as good as though the bases were machined from the solid metal of the gun itself its reliability is unexcelled.

The scope and mounts can be easily detached and replaced in exact position. When removed no parts remain on the gun to detract from its appearance, the scope and mounts are detachable in one complete unit including the attaching screws which remain in the mount bases.

Two bases are used and the different bases are numbered. The following list shows the correct bases to use on various rifles.

Make, Model of Rifle	No. of Base	
	Rear	Front
REMINGTON 30, 30S, 30A	2	2
341, 34, 41, 33	5	5
241	2	4
121	1	3
141, 14, 12A, 25	2	3
12C Octagon Barrel	3	3
24	1	5
37	4	5
510, 511	3	3
SAVAGE 99	6	2
40, 45	2	2
23, 19, 33, 219	1	1
29	1	3
3*, also 4*, 5*, with former high bolt handles	4	5
6, 7, also 4, 5, with new low bolt handles	1	3
STEVENS and STEVENS-SPRINGFIELD		
15, 53*, 83*, also 56*, 66*, 84*, 86*, with former high bolt handles	4	5
57, 057, 416, 76, 87, also 56, 66, 84, 86, 85 with new low bolt handles	1	3
27, 26, 418, 418½	3	3
417	1	1

Make, Model of Rifle	No. of Base	
	Rear	Front
SPRINGFIELD, GOV'T. 03*, M1*, M2*	8	2
WINCHESTER 70, 54*	7	2
69, 72, 56, 57, 74	1	3
60, 67, 68, 75	5	5
63, 61, 03	2	3
62, 06, 90	3	5
52, all models without dovetail cut in receiver, including Sporter	2	2
52, standard barrel, with dovetail cut in receiver	2	4
52, heavy barrel, with dovetail cut in receiver	2	3
MOSSBERG 26, 30, 34, 35, 40, 42, 43, 44, 45, 46	1	3
26, 25	3	3
10, 14	5	5
MARLIN 50, A1	1	3
39, 39A	3	3
36	2	4
80*, 81*, 100*	3	5
MAUSER* With front end of receiver enlarged, or offset	5	1
With straight receiver	3	2

On Mauser the raised portion of rear of receiver (receiver bridge) should be filed or ground down flush with the straight lower portion.

ENFIELD M. 1917 (with receiver reshaped similar to Remington M. 30)

KRAG

8 2

Rifles marked * require altering of the bolt handle for use with low B mount.

TYPE T MOUNT

Type T Mount complete. Retail \$1.95. Wholesale \$1.46.

Type T mount is a side bracket design mount. It is made of tough alloy steel and with the exception of the upper scope clamps is of one piece construction. The base portion is reinforced, the clamps grip the scope as tightly as if they were welded to the tube. It has been thoroughly proved under all conditions and on the most powerful rifles.

Type T is made in several designs to fit different rifles and to hold the scope in either a high or low position. The following list shows the various mounts and rifles to which they are adapted.

TYPE T-1—Holds the scope very low and central over bore.

All guns listed under T-1 can be used with T-3 or T-03 which permits regular sights to be used in conjunction with the scope.

Winchester Models, 56, 57, 69, 72, 87, S.S., 74.

Savage Models 6, 7, 19, 19-33, 19-H, 19 N. R. A., Sporters, 23A, 23AA, 23B, 23C, 23D, 40, 45, 219.

Stevens Models 76, 076, 44, 414, 416, 417, 417½, 418, 418½, 85, 87, 84, 86, 15, 57, 057.
